<p>Construction is to commence on or before the ____ day of _____, 20__, and end by the ____ day of _____, 2025.</p>		

Prior to any site preparation for or the beginning of any work on any pipeline on county property within the county, an application for a permit to do so must be filed at the county clerk and county judge's offices, and such applications shall include the furnishing of all items that meet the permit application requirements. Applicant must obtain approval of the application and then the applicant must obtain an executed easement or right of way document that is acceptable to the County. A form of this easement or right-of-way document may be obtained through the office of the County Judge or the County Commissioners' Court or the County's designated attorney.

If such applications or revised applications, as the case may be, are acceptable to the engineer to be designated by the county and acceptable to the commissioners' court of Frio County, Texas, and any director of planning of the county, and meets all

permit requirements, the Commissioners' court at their discretion may schedule a public hearing before the commissioners' court at their first available regularly scheduled meeting date or at a special meeting as may be determined by the commissioners' court. Notice of such public hearing will be published by the county in the legal notices section of the local newspaper or posted at the Frio County courthouse or at such other place as otherwise determined by the commissioners' court. Following such hearing the commissioners' court shall either approve or deny the permit request. If the issuance of a permit is denied by the commissioners' court, the county shall explain at the meeting or in writing to the applicant the reasons for denying the permit request. If the issuance of a permit is accepted by the Commissioners' Court, then applicant shall execute the necessary pipeline easement and right-of-way documents, which may be obtained through the Commissioners' Court, the Office of the County Judge, and the County's designated attorney.

Certification

I certify under penalty of law that I have personally examined and am familiar with the information submitted and that based on my inquiry of those individuals responsible for obtaining this information, I believe that the submitted information is true, accurate, and complete, and the undersigned agrees that a formal pipeline easement shall not be valid or executed until Applicant complies with all of the above and the Pipeline Permit Process adopted by the Commissioners' Court of Frio County Texas, and that the undersigned as a condition to this permit and the granting of an easement agrees to fully comply with all of the requirements of the County of Frio as it relates to the Pipeline Permit Process as it may be later amended.

Date signed: _____

The above Application is conditionally granted subject to compliance with all of the above on this ____ day _____, 20__.
